STEERING & GUIDANCE

This project would not have been possible without the strong guidance of our Steering Committee. In particular, we would like to thank Andrew McCallum of MBIE for his tireless energy in keeping this project on track, while at the same time pushing us forward.

Draft versions of all “Top 100” firms profiled in this document were distributed to those firms for comment, addition or correction. This was done in the form of emails and phone calls. We thank those that helped us in this process for their time and effort. We also thank those that provided them for their photos.

We are grateful for all of the input we have received, but the report is ours and any errors are our own.

Finally, we acknowledge the support of the Ministry of Business, Innovation and Employment (MBIE), New Zealand Trade and Enterprise (NZTE). It is their funding that has made this report possible.

KEY CONTACTS FOR THIS REPORT

This analysis was prepared by Virginia Wilkinson and Tim Morris, Coriolis Directors, together with Nicki Hall, a consultant at Coriolis.

Virginia Wilkinson is a Director at Coriolis. Virginia is Coriolis’ resident expert on consumer insights and market research. She has over fifteen years of experience in primary sector and food and fast moving consumer goods research. Virginia regularly conducts both primary and secondary research on food, fast moving consumer goods, retailing and foodservice across Australasia. You may contact her by e-mail on: vwilkinson@coriolisresearch.com

Tim Morris is a Director at Coriolis and is recognised as a leading expert and advisor to CEOs and stakeholders in strategy in food, fast moving consumer goods and retailing. Tim is a recognised expert globally in retailing, particularly in private label, with his work being quoted in numerous publications and college textbooks. He is head of Coriolis’ retail and consumer goods practice. You may contact him by email on: tmorris@coriolisresearch.com

INHERENT LIMITATIONS

This work was commissioned by the Ministry of Business, Innovation and Employment (MBIE) and prepared by Coriolis. This work is based on secondary market research, analysis of information available or provided to Coriolis by our client, and a range of interviews with industry participants and industry experts. Coriolis have not independently verified this information and make no representation or warranty, express or implied, that such information is accurate or complete.

Projected market information, analyses and conclusions contained herein are based (unless sourced otherwise) on the information described above and on Coriolis’ judgment, and should not be construed as definitive forecasts or guarantees of future performance or results. Neither Coriolis nor its officers, directors, shareholders, employees or agents accept any responsibility or liability with respect to this document.

Coriolis wishes to draw your attention to the following limitations of the Coriolis report “The Investor’s Guide to the New Zealand Food & Beverage Industry; November 2014” (the Coriolis Report) including any accompanying presentation, appendices and commentary (the Coriolis Commentary):

a. Coriolis has not been asked to independently verify or audit the information or material provided to it by or on behalf of the Client or any of the parties involved in the project;

b. the information contained in the Coriolis Report and any Coriolis Commentary has been compiled from information and material supplied by third party sources and publicly available information which may (in part) be inaccurate or incomplete;

c. Coriolis makes no representation, warranty or guarantee, whether express or implied, as to the quality, accuracy, reliability, currency or completeness of the information provided in the Coriolis Report and any Coriolis Commentary or that reasonable care has been taken in compiling or preparing them;

d. the analysis contained in the Coriolis Report and any Coriolis Commentary are subject to the key assumptions, further qualifications and limitations included in the Coriolis Report and Coriolis Commentary, and are subject to significant uncertainties and contingencies, some of which, if not all, are outside the control of Coriolis; and

e. any Coriolis Commentary accompanying the Coriolis Report is an integral part of interpreting the Coriolis Report. Consideration of the Coriolis Report will be incomplete if it is reviewed in the absence of the Coriolis Commentary and Coriolis conclusions may be misinterpreted if the Coriolis Report is reviewed in absence of the Coriolis Commentary.

Coriolis is not responsible or liable in any way for any loss or damage incurred by any person or entity relying on the information in, and the Recipient unconditionally and irrevocably releases Coriolis from liability for loss or damage of any kind whatsoever arising from, the Coriolis Report or Coriolis Commentary including without limitation judgments, opinions, hypothesis, views, forecasts or any other outputs therein and any interpretation, opinion or conclusion that the Recipient may form as a result of examining the Coriolis Report or Coriolis Commentary.

The Coriolis Report and any Coriolis Commentary may not be relied upon by the Recipient, and any use of, or reliance on that material is entirely at their own risk. Coriolis shall have no liability for any loss or damage arising out of any such use.

The report is dated November 2015 and Coriolis accepts no liability for and has not undertaken work in respect of any event subsequent to that date which may affect the report.

All trade data analysed in all sections of the F&B Information project are calculated and displayed in US\$. This is done for a range of reasons:

- It is the currency most used in international trade
- It allows for cross country comparisons (e.g. vs. Denmark)
- It removes the impact of NZD exchange rate variability
- It is more comprehensible to non-NZ audiences (e.g. foreign investors)
- It is the currency in which the United Nations collects and tabulates global trade data

Anyone should feel free to call the authors if any of the material cannot be understood or accessed. We always welcome opportunities to discuss our research with our readers and users.

Unless otherwise noted, all photos used in this discussion document were either provided by the New Zealand Story resource (www.nzstory.govt.nz) or purchased by Coriolis from a range of stock photography providers. Our usage of them complies with their various license agreements.

Where appropriate, this document is Copyright © 2015 Coriolis and MBIE. However, please feel welcome to use, refer to and cite this research.

Why did the New Zealand government undertake this project?

What is the purpose of the food and beverage information project?

The project pulls together the available information on the food and beverage industry into one place, in a form which is familiar and useful to business. The reports contain analysis and interpretation of trends and opportunities to materially assist with business strategy and government policy.

The information will be of vital use to businesses, investors, government, and research institutions as the industry expands and diversifies. This industry view will be very useful to government, enabling better dialogue and the opportunity to address issues collectively.

What benefit will this bring to businesses?

The Project will have many uses for businesses. These include:

- As a base of market intelligence to enable business to be much more targeted in their own market research
- Reviewing and informing offshore market development (including export and investment) strategies
- Assisting in identifying areas of innovation and R&D for the future
- Identifying strategic partners and collaborators
- Enabling a company to benchmark performance with that of its competitors
- Monitoring industry activity
- Gaining a better understanding of their own industry sector
- Identifying internal capability needs or external inputs

How will government use the reports?

This information will provide much greater insight into the industry, which is useful for a range of policy developments, from regulatory frameworks to investment in science and skills and facilitating access to international markets. In particular, a single source of factual information will enable government agencies to better coordinate their efforts across the system and be more responsive to addressing industry issues.

www.foodandbeverage.govt.nz

Core questions that Coriolis were engaged to address:

What is the high level case for investment in the New Zealand food & beverage industry?

Who are the key firms?

Which sectors are growing?

Food and Beverages contributed \$30.7 billion in exports in 2014; almost half New Zealand's total exports of \$66.2b

TOTAL NEW ZEALAND EXPORTS OF GOODS AND SERVICES BY CATEGORY

NZ\$b; % of total exports; 2014/2015¹

EXECUTIVE SUMMARY

GENERAL

New Zealand is a developed, temperate-climate country in the Asia-Pacific region. It is a stable democracy with strong economic freedoms (Index of Economic Freedom #4), excellent investor protection (World Bank #1) and low corruption (Transparency International #1). It is by almost all measures the most attractive investment destination in the temperate zone of the Southern Hemisphere.

FOOD & BEVERAGE

Food and beverage exports are important to New Zealand and the country is a major F&B exporter. The food and beverage industry accounts for 46% of all goods and services exports. Exports are growing strongly and the country's export performance is strong and improving relative to peers.

The country has demonstrated capability in the production of temperate-climate food and beverages. It is the largest exporter in the world of dairy products and lamb and a major exporter of beef, kiwifruit, apples and seafood.

The Top 100 F&B firms in New Zealand have a combined revenue of \$51.5 billion (2014). Industry-wide investment has driven scale, efficiencies and the continued development of high value categories.

DRIVERS

The success of New Zealand in temperate foods is built around a natural environment conducive to agriculture. New Zealand – surrounded by the Pacific Ocean – has the light of Spain with the climate of Bordeaux. This climate will also moderate the effects of global warming going forward (relative to large continents).

The country's farmers are highly productive and efficient. The country has no agricultural subsidies and regulation is generally rational and light handed.

New Zealand is a leader in food safety and product traceability. Customers and

consumers around the world trust food and beverages produced in New Zealand.

In science, New Zealand spends more than half a billion dollars a year on Agri-food research across a wide range of areas, from fruit genetics to nutraceuticals. The country is also home to four major universities respected globally for their Agri-food research.

OPPORTUNITIES

While New Zealand is a major global F&B exporter, the country has significant untapped capacity to export more. New Zealand is a country the size of Italy with the population of Singapore. However Italy feeds a domestic population of 60m people and exports twice as much F&B as New Zealand.

The New Zealand Government has set a target of tripling the country's food and beverage exports over the next 15 years. The recently announced investment attraction strategy is aimed at attracting high value foreign investment in areas of competitive advantage, delivering potential direct economic impact of \$5 billion over three years.

New Zealand is a young country still discovering its comparative advantages and new industries continue to emerge. In the past twenty years New Zealand wine, honey, aquaculture and avocados have all emerged from almost nothing into world leading sectors.

New Zealand has attracted investment in F&B manufacturing from around the world. Global leaders have already endorsed New Zealand by investing in manufacturing in the country and about 25% of the F&B manufacturing sector is foreign owned.

New Zealand welcomes new investment and investors will participate in its success.

Next 100 F&B Firms

The case for investment in the New Zealand Food & Beverage Industry is built on four pillars

WHY NEW ZEALAND?

GROWING TO ASIA

- Free trade agreements
- Growing export share and value

STRONG CORE + EMERGING

- Strong in a handful of ingredients
- Growing in a wide range of emerging categories

GROWTH UPSIDE

- Low intensity currently
- Significant growth upside

TRUSTED

- Food safety systems
- Recognised by consumers
- Well supported

First, New Zealand Food & Beverage exports are growing to Asia

WHY NEW ZEALAND?

GROWING TO ASIA

- Free trade agreements
- Growing export share and value

STRONG CORE + EMERGING

- Strong in a handful of ingredients
- Growing in a wide range of emerging categories

GROWTH UPSIDE

- Low intensity currently
- Significant growth upside

TRUSTED

- Food safety systems
- Recognised by consumers
- Well supported

New Zealand exports food and beverages to a wide range of destinations; however Asia is now the largest destination region

NEW ZEALAND F&B EXPORT VALUE BY DESTINATION REGION

US\$b; 2014

Developing markets – particularly China – are driving New Zealand food & beverage export growth

TEN YEAR NEW ZEALAND F&B EXPORT VALUE BY REGION GROWTH MATRIX

US\$m; %US\$; 10y ABS; 10y CAGR; 2004 vs. 2014

New Zealand is fast transitioning from feeding Westerners to feeding the Asia-Pacific region

SHARE OF TOTAL NEW ZEALAND F&B EXPORT VALUE BY DESTINATION REGION
% of value; 1965-2014

Source: UN Comtrade database; Coriolis analysis

Despite this growth, New Zealand has significant per capita upside across all three major growth regions

Source: UN Comtrade database; Coriolis analysis

New Zealand has free trade agreements – either in place or proposed – with most of the Asia-Pacific region

NEW ZEALAND FREE TRADE AGREEMENTS: EXISTING OR PROPOSED 2015

New Zealand's overall export growth performance has been excellent relative to peers

TEN YEAR F&B EXPORT VALUE GROWTH MATRIX: NEW ZEALAND VS. SELECT PEERS

US\$m; %US\$; 10y ABS; 10y CAGR; 2004 vs. 2014

Source: UN Comtrade database; Coriolis analysis

This shift in market is leading to a corresponding shift in products and industry structure

MODEL OF CHANGING NATURE OF NEW ZEALAND'S FOOD & BEVERAGE EXPORTS AND EXPORT MARKETING SYSTEM 2015

Second, New Zealand has a strong core and a range of emerging growth categories

WHY NEW ZEALAND?

GROWING TO ASIA

- Free trade agreements
- Growing export share and value

STRONG CORE + EMERGING

- Strong in a handful of ingredients
- Growing in a wide range of emerging categories

GROWTH UPSIDE

- Low intensity currently
- Significant growth upside

TRUSTED

- Food safety systems
- Recognised by consumers
- Well supported

New Zealand has a strong core across six sectors

New Zealand is driving food & beverage long term export growth across all sectors

NEW ZEALAND FOOD & BEVERAGE EXPORT VALUE BY SECTOR

US\$m; 2004-2014

Within these sectors, New Zealand also has a wide range of emerging growth categories

EMERGING							
							
HONEY	MUSSELS	SALMON	BEEF JERKY, ETC.	AVOCADOS	CHERRIES	BERRIES	F FRENCH FRIES
							
SOUPS	KETCHUP	YOGHURT	ICE CREAM	PET FOOD	BISCUITS, ETC.	CHOCOLATE	CONFECTIONERY
							
INFANT FORMULA	NUTRITIONALS	UHT MILK	SOFT DRINKS	BEER	CIDER	SPIRITS	OTHER EMERGING

New Zealand is achieving strong long term growth across all emerging categories

EMERGING (Export value; US\$m; 2004 v 2014)

Third, New Zealand has strong growth upside

WHY NEW ZEALAND?

GROWING TO ASIA

- Free trade agreements
- Growing export share and value

STRONG CORE + EMERGING

- Strong in a handful of ingredients
- Growing in a wide range of emerging categories

GROWTH UPSIDE

- Low intensity currently
- Significant growth upside

TRUSTED

- Food safety systems
- Recognised by consumers
- Well supported

New Zealand is not a small country

TOTAL AREA: NEW ZEALAND VS. SELECT REGIONS
Km²; 000; 2015

Note: this document takes no position on sovereignty in Asia (e.g. Taiwan); Source: CIA World Fact Book; Wikipedia; Coriolis analysis

New Zealand has resources available to produce more food

New Zealand is increasing food production

FOOD PRODUCTION PER PERSON

FOOD PRODUCTION PER SQUARE KM
Tonnes/km²; 1963-2013

TOTAL FOOD PRODUCTION
Tonnes; m; 1963-2013

Source: United Nations FAO AgStat; FAO FishStat; Coriolis analysis

New Zealand has further capacity to grow – peers suggest doubling total food production is not unreasonable

FOOD PRODUCTION PER PERSON
Tonnes/capita; 1963-2013

FOOD PRODUCTION PER SQUARE KM
Tonnes/km²; 1963-2013

TOTAL FOOD PRODUCTION
Tonnes; m; 1963-2013

Source: United Nations FAO AgStat; FAO FishStat; Coriolis analysis

Finally, New Zealand is trusted by consumers and manufacturers

WHY NEW ZEALAND?

GROWING TO ASIA

- Free trade agreements
- Growing export share and value

STRONG CORE + EMERGING

- Strong in a handful of ingredients
- Growing in a wide range of emerging categories

GROWTH UPSIDE

- Low intensity currently
- Significant growth upside

TRUSTED

- Food safety systems
- Recognised by consumers
- Well supported

Consumers recognise and value “Brand New Zealand”

Consumers in key markets – particularly Asia – trust New Zealand food and beverages

JAPANESE CONSUMERS PUBLIC IMAGE OF FOREIGN PRODUCTS

Ranked index; 2009

As a result of being an island nation with strong biosecurity controls, New Zealand is free of a wide range of animal diseases; this leads to higher yields and excellent market access

Foot-and-mouth
Bovine Spongiform encephalopathy (BSE)
Bovine Brucellosis
Scrapie
Foot-and-mouth
Blue tongue
Foot-and-mouth
Chronic Wasting Disease
Potomac horse fever
African Horse Sickness
West Nile virus
Equine encephalomyelitis
Highly Pathogenic Avian Influenza (Bird flu)
Infectious Bursal Disease

Porcine Reproductive & Respiratory Syndrome
Porcine Brucellosis
Classical Swine fever
Infectious Salmon Anemia (ISA)

NOT IN NEW ZEALAND

LOW MEDICINE
& CHEMICAL USAGE

FASTER GROWTH &
HIGHER YIELDS

ENABLED SPECIALTY
PRODUCTS

PRIVILEGED
MARKET ACCESS

As a result of its strong brand, excellent reputation and consumer trust, food & beverage manufacturers regularly call out New Zealand on the front of pack

EXAMPLE: PET FOOD WITH NEW ZEALAND ON FRONT OF PACK

New Zealand has a long history of agricultural and science based education and government-funded R&D in the food industry

F&B FOCUSED SCIENCE ORGANISATIONS

UNIVERSITIES WITH MAJOR F&B RESEARCH

GOVERNMENT CO-INVESTMENT IN INNOVATION

- Primary Growth Partnership (PGP)
- MPI managed investment in business-led and market-driven long term innovation programs to increase market success of primary industries

Businesses have business development advice and access to science and research facilities at five locations throughout New Zealand

NZFIN

LOCATION	FOCUS	CAPABILITIES
THE FOODBOWL	Processed/FMCG foods Space/equipment for hire Export registrations ~1000 kg/shift	- Extrusion & Milling/Blending - Liquids/Beverage - High pressure processing - Freeze drying - General processing - Multiple packaging styles - Product development kitchen
FOODWAIKATO	Dairy & Infant Formula ~500 kg/hour Vegetable	- Spray dryer - Evaporator - Other dairy equipment - Packing - Powder (vegetable)
HAWKES BAY	All Food and Beverage	Specialist expertise - business development - direct to other facilities
THE FOODPILOT	Dairy Fruit & vegetables All Food and Beverage	- Same equipment as Manukau (1/5th scale) - Same equipment as Waikato (1/20th scale) - Post harvest technologies - Meat and small goods pilot plant - Located at Massey University
FOODSOUTH	Processed/FMCG Foods Space/equipment for hire Export registrations 20-200L batch size	- Mixing /Blending/Emulsifying - Extrusion - Freezing/Cooking/Baking - General Processing - Product Development Kitchen - Technical and Business development expertise

Food research hubs are located in the lower North Island and South Island; the New Zealand Government aims to attract 10 new Multinational Companies to undertake R&D in New Zealand over the next five years

Food HQ - FOOD RESEARCH HUB

LINCOLN HUB - RESEARCH COLLABORATION

- Objective is to offer expertise across the value chain to support food and beverage industry
- Based in Palmerston North
- Combining resources from Crown Research Institutes, Research facilities, auditing and certification facilities with Business investment organisations, education, industry and local government

- Objective is to accelerate the rate of economic development in land-based sectors
- 5 founding research partners
- Based on and close to Lincoln University
- Dedicated resources
- Investment in infrastructure and facilities
- Drawing on work of 900+ researchers

New Zealand food and beverage sectors have robust industry representation

Executive Summary

The Case for New Zealand F&B

Sector Level Review

Firm Activity

Top 100 Firm Profiles

Next 100 F&B Firms

DAIRY - OVERVIEW

New Zealand is the “market maker” in the global ingredient dairy trade; rapidly emerging in packaged/processed

POWDERS

#1 Global Exporter
#1 Asia Supplier

- “Market maker” in global trade
- Largest supplier to E/SE Asia; growing share
- Stellar growth into China on back of FTA in 2008
- Major supplier to effectively all packaged, branded dairy firms in Asia
- Pioneer in development of whole milk powders (WMP) in mid-20th Century
- Active across developing Asia for ~100 years; long term trusted supplier
- Deep local knowledge and skills around dairy powders

BUTTER/DAIRY FATS

#1 Global Exporter
#1 Asia Supplier

- Strong across butter, ghee and other dairy fats
- Growing in butter-blend spreadables

CHEESE

#5 Global Exporter
#1 Asia-Pacific Supplier

- Strong position in bulk cheddar/similar
- Rapidly growing in pizza cheeses for foodservice
- Potential for premium, specialty currently underexploited

OTHER

Growing to Asia

- NZ historically avoided competition with its own customers; freed-up with deregulation a decade ago
- Strong growth off a low base
- Rapidly growing UHT exports (driven by investment and changing economics)
- Yoghurt a niche into developed Asian city states
- New packaging technologies creating new product/category opportunities

DAIRY

All New Zealand dairy categories have shown strong growth over the last 10 years

NZ DAIRY EXPORTS BY TYPE

MEAT

New Zealand is dominant in the global lamb and venison trade and strong in beef; emerging rapidly in packaged/processed products

LAMB

#1 Global Exporter

- Dominant global lamb exporter
- New Zealand alone represents more than a third of global trade; NZ+AU represent 70%; trans-Tasman consolidation likely going forward
- Clear long term comparative advantage in lamb built on solid foundations: skills, genetics, supportive business ecosystem, climate
- Strong animal health and animal traceability systems

BEEF

#3 Supplier to China & USA
#8 Global Exporter

- Low cost producer; strong in manufacturing grade
- Strong into US market (itself a major exporter); rapidly growing into Asia
- Most animals purely grass fed with natural positioning
- Growing intensive feeding operations (primarily Japanese investment to date)
- National herd shifting to dairy breeds with growth of that industry

DEER

#1 Global Exporter

- New Zealand pioneered deer farming
- Proven farming systems and genetics
- Largest global producer and exporter of farmed venison

PROCESSED/OTHER

Growing Strongly

- Growing well off a low base
- Leading firms backed by private equity and global multinationals

MEAT

New Zealand meat exports have shown strong growth, particularly over the last five years

2015

SEAFOOD

New Zealand has a stable wild seafood catch, is a leader in rock lobster and is growing in mussel and salmon aquaculture

WILD CAPTURE

Stable
Supply

- Stable, predictable, secure long term supply of fish
- NZ pioneering of wild catch quota management has prevented collapse of fish stocks (unlike competitors)

ROCK LOBSTER

#4 Global
Exporter

- Well managed fishery
- Stable supplies
- One of two major global suppliers of spiny red rock lobster (rest of world primarily clawed lobster)
- Growing strongly into China and wider Asia

MUSSELS

5% of
Global Production

- Modern and consolidated industry
- Proven supply chain, track record in in-store merchandising systems
- Recently implemented breeding program driving strong productivity gains

SALMON

#1 Global Farmed
Chinook/King Salmon

- Highly consolidated and at scale
- Effectively only global supplier of farmed Chinook; others hampered by disease
- Lack of key salmon diseases (e.g. ISA)
- Huge potential for growth (5x/10x)

SEAFOOD

Seafood exports now exceed \$1b; rock lobster showing substantial growth

NZ SEAFOOD EXPORTS BY TYPE

US\$m; 2004-2014

EXAMPLE PRODUCTS: NZKS/REGAL

2015

PRODUCE

New Zealand is a major producer and exporter of kiwifruit and apples; it is also strong in select temperate climate vegetables; it also has a range of emerging new fruit

KIWIFRUIT

#1 Global Exporter
#3 Global Producer

- Native to China, but developed and commercialised by New Zealand; most global varieties (outside China) developed in NZ
- Industry centered around Bay of Plenty
- Fruit packed in grower controlled packhouses, which are consolidating rapidly
- All NZ kiwifruit exports go through grower-owned Zespri (except to Australia)
- Zespri is ~13x times larger than its nearest competitor globally

APPLES

#3 Southern Hemisphere Exporter

- NZ has a strong record in new variety development; NZ-developed Gala and Braeburn now account for 1/6 trees globally (x China)
- New emerging third generation IP-controlled varieties have high potential for growth, particularly in Asia
- Industry centered around two key regions: Hawke's Bay and Nelson
- Industry consolidating into large scale integrated grower/packer/shippers

EMERGING FRUIT

Strong Growth
Proven Capabilities

- Wide range of growing new fruit building on NZ proven fruit development capabilities
- Avocados strong into Australia; emerging elsewhere
- Cherries growing into a seasonal window into Asia
- Blueberries growing on the back of "superfruit" status and fresh window
- Kiwiberries growing strongly off a low base; not under Zespri control

VEGETABLES

Seasonal Windows
& Processing

- Premium/specialty positioning similar to Netherlands ("The Holland of Asia-Pacific")
- Strong in fresh onions
- Glasshouse capsicums growing; Dutch investment
- Butternut squash window to Japan
- Select temperate field crops (peas, etc.) to export and processing

PRODUCE

While kiwifruit and apples dominate exports, emerging fruit species are making significant gains

NZ PRODUCE EXPORTS BY TYPE

PROCESSED FOODS

New Zealand is achieving success in processed foods across four broad categories of product

INFANT/NUTRITIONALS

Fast Growing Category

- Leveraging global leadership in dairy powders
- Growing across three on-trend categories:
 - Infant/growing-up
 - Diet/weight/body
 - Aging/bone/health
- Goat Infant Formula pioneered by NZ; sheep emerging

SNACKS

Fast Growing Portfolio

- On-trend with global shift to increased snacking/busy lifestyles
- Growing into Australia and Asia
- Attracting investment from global multinationals and emerging Asian leaders

CORE GROCERY

Solid Stable of Products

- Key multinationals reinvesting in New Zealand (e.g. Kraft-Heinz, McCain)
- Well positioned group of local leaders
- Wide range of further opportunities

EMERGING/OTHER

Stunning Growth Across Platform

- Leveraging NZ geographic isolation and unique ecosystem/botanicals
 - Greenshell Mussels
 - Wide range of other plants
- In-line with NZ global positioning as "100% Pure NZ"
- Firmly on-trend
- Industry reorienting to needs of China/Asia

PROCESSED FOODS

Processed foods categories are showing long term growth across major categories; Infant/nutrition and Emerging/other foods showing strong double digit growth

NZ PROCESSED FOODS EXPORTS BY TYPE

US\$m; 2004-2014

PROCESSED - INFANT/NUTRITIONALS

New Zealand is achieving strong long-term growth in infant formula, with further potential for growth and value increases; retrenching in dairy nutritionals*; China driving global trade growth

BEVERAGES

New Zealand has a strong beverages platform, with real strength in wine and strong growth elsewhere

WINE

#1 Global
Sauvignon Blanc

- New Zealand Sauvignon Blanc “owns” the category and is now a “must have”
- Refreshing/summer afternoon positioning to females (vs. reds)
- Emerging in Pinot Noir and other reds
- Strong growth for 30+ years
- Strong and growing market share across Anglo-Saxon markets
- Growing rapidly into Asia
- Attracting global brand leaders (e.g. LVMH Moët Hennessy Louis Vuitton)

BEER/CIDER

On-Trend
& Growing

- Benefiting from global shift to craft/specialty
- Leveraging long-term NZ strength in hops and apples
- Growth coming from global multinationals (e.g. Kirin, Heineken, Asahi) and local innovators
- Cider, in particular, stands out as having clear leverage and good long term growth prospects

NARTD*

On-Trend
& Growing

- Growing strongly in a “post-CSD” environment [Carbonated Soft Drinks]
- Good fit with “Brand NZ” and existing strengths in select fruits
- Early pioneer of energy drinks with V
- Strong traction in “natural” positioned carbonated juices
- No real leverage to date of existing strong fruit brands (e.g. Zespri, Jazz, Pacific Rose)
- Water an emerging opportunity that is underexploited

SPIRITS

Emerging Horizon 3
In Development

- Sector in early stages of growth curve
- Rapid innovation underway
- Still seeking “unique” position beyond “me-too” spirits

* NARTD Non-alcoholic ready to drink

BEVERAGES

Wine remains the driving force of New Zealand's beverage exports

NZ BEVERAGE EXPORTS BY TYPE

US\$m; 2004-2014

BEVERAGES - WINE

New Zealand has rapidly growing wine exports on the back of Marlborough Sauvignon Blanc, which is now a “must have” varietal across most major markets; Pinot Noir also achieving growing recognition

www.coriolisresearch.com

Coriolis is the leading Australasian management consulting firm specialising in the wider food value chain. We work on projects in agriculture, food and beverages, consumer packaged goods, retailing & foodservice. In other words, things you put in your mouth and places that sell them.

WHERE WE WORK

We focus on the Asia Pacific region, but look at problems with a global point-of-view. We have strong understanding of, and experience in, markets and systems in Australia, China, Japan, Malaysia, New Zealand, Singapore, South Korea, Thailand, the United Kingdom and the U.S. We regularly conduct international market evaluations and benchmarking.

WHAT WE DO

We help our clients assemble the facts needed to guide their big decisions. We develop practical, fact-based insights grounded in the real world that guide our clients decisions and actions. We make practical recommendations. We work with clients to make change happen. We assume leadership positions to implement change as necessary.

HOW WE DO IT

All of our team have worked across one-or-more parts of the wider food value chain, from farm-to-plate. As a result, our recommendations are grounded in the real world. Our style is practical and down-to-earth. We try to put ourselves in our clients' shoes and focus on actions. We listen hard, but we are suspicious of the consensus. We provide an external, objective perspective. We are happy to link our fees to results.

WHO WE WORK WITH

We only work with a select group of clients we trust. We build long term relationships with our clients and more than 80% of our work comes from existing clients. Our clients trust our experience, advice and integrity.

Coriolis advises clients on growth strategy, mergers and acquisitions, operational improvement and organisational change. Typical assignments for clients include...

FIRM STRATEGY & OPERATIONS

We help clients develop their own strategy for growing sales and profits. We have a strong bias towards growth driven by new products, new channels and new markets.

MARKET ENTRY

We help clients identify which countries are the most attractive – from a consumer, a competition and a channel point-of-view. Following this we assist in developing a plan for market entry and growth.

VALUE CREATION

We help clients create value through revenue growth and cost reduction.

TARGET IDENTIFICATION

We help clients identify high potential acquisition targets by profiling industries, screening companies and devising a plan to approach targets.

DUE DILIGENCE

We help organisations make better decisions by performing consumer and market-focused due diligence and assessing performance improvement opportunities.

EXPERT WITNESS

We provide expert witness support to clients in legal cases and insurance claims. We assist with applications under competition/fair trade laws and regulations.
